- ~Attendance
- ~4 groups
- ~Getting Started
- ~Small Group Activity
- ~Basics for Smart Board
- ~Intro to Notebook Software
- ~Lunch
- ~Creating Smart Objects
- ~Combining Smart Objects
- ~Dismissal

[illegible]

The screenshot shows a web application titled "Random Group Generator". The interface is clean and modern, with a blue color scheme. At the bottom of the page, there is a control panel with a label "Number of groups" followed by a dropdown menu currently showing the value "2". To the right of this is a prominent blue button labeled "Generate".

# Digital Transparency Layer

The transparency layer allows you to write on a web page or non-SMART Notebook application. A border will appear to let you know you are working within the transparency layer.

 Move to the SMART Board

## SMART Ink

- write and draw in any program over application
- write over a video
- convert digital ink into text
- if application has own ink tool then turn off SMART Ink

Smart Ink

## SMART Ink

- Internet use
- PDF
- Powerpoint
- Smart Ink Document Viewer

smart ink

1. Write in SMART Ink
2. Select it
3. Choose destination
4. Convert to text
